Hi,

I understand that is what is happening in San Diego county.

I'll follow up with the Sheriff's office.

Hi [REDACTED],

I don't know for sure, but I don't believe ICE has agents IN any of our jails. I'd suggest you write the Sheriff's office directly and ask that question. I'll be cc'd so can learn the answer at the same time as you. Thx.....M

Hi,

A further question:

Does Santa Clara County currently have an ICE agent in every facility to determine whether a person in jail is an undocumented alien in the United States?

We hope to make some progress today by updating 3.54 to current law (as County Counsel recommends) but as I'm sure you've read by now we

don't have access to any data base that confirms country of citizenship, so we are completely limited as to what more we can do. Very frustrating for you and me...M

Mr. Wasserman,

In light of the violent death of Bambi Larson and other crimes that have happened over the last several years I strongly urge you to reconsider the existing non-cooperation policy (3.54) that prevents law enforcement from responding to federal requests for release date information for serious violent criminals.

I believe that the rights and protection of existing citizens should be a priority of all levels of law enforcement.
